

## About

**MyFuture+** is a unique on-line career learning and development tool that links young people and adults with their Guidance Professionals and Teachers involved in career exploration and learning. Using their online Career File, students gain access to a suite of helpful strength-based career self-assessments, career and employment opportunities, live job information and career tools that encourage self-reflection and career planning, preparation and decision making.

**MyFuture+** FET Centres is for services assisting groups of learners with their career planning and development, for example Youthreach, NLN and Community Training Centres. The programme also supports the delivery and assessment of QQI work experience and personal and professional development modules.

**MyFuture+** FE version is based on the number of learners likely to use the system over a one-year timeframe, and the number of Administrators operating the system. Costs are annual from agreed start date.
